HiTEC DB950SW

Join in, vote and win!

Choose your personal favourites from 139 candidates and help decide who receives the coveted FMT Adler 2026 – whilst also securing your chance to win one of 272 high-quality prizes. The attractive prizes, which we present on the following pages, will be drawn at random among all participants.

We would also be delighted if you could spare a brief moment to answer our questions. Your feedback helps us to continuously develop and improve FMT. We hope you enjoy voting for the FMT Adler – and wish you the very best of luck in the prize draw!

How the Adlerwahl works

Visit www.vth.de/leserwahl and use the online voting form to cast your vote in each model category. Alternatively, you can submit your vote by post. Simply use the form on page 108 and send it to the publisher.

The various categories – Foamie, Glider, Electric Glider, Powered Flight, Jet, Foamie/Jet, Copter, RC Electronics/Technology, Scratch-built and Plan-built – are divided into categories A to K. An overview of all candidates can be found from page 104.

Rating the model building industry

In addition to voting for the FMT Adler, you also have the opportunity to rate companies in the model building industry. Select up to seven companies and award school-style grades in the categories Innovation, Product Quality, Value for Money, Service Quality and Availability. A 1 stands for „excellent“ and a 6 for „inadequate“. Enter the reference numbers of your chosen companies in the corresponding fields on the reply card, or vote online. The closing date for both methods is 31 May 2026. There is no right of appeal regarding the outcome. Employees of VTH and the companies mentioned are excluded from participation.

Top-quality prizes await you!

Numerous well-known companies have generously provided high-quality prizes for the draw – for which we would like to extend our heartfelt thanks! By taking part in the vote, you automatically enter the draw for one of these sought-after top prizes.

So joining in is doubly worthwhile. Cast your vote now and choose the FMT Adler 2026 – we look forward to your participation.
